

## 4th International Professional Geology Conference

# EARTH SCIENCE - GLOBAL PRACTICE

January 22-24, 2012

Vancouver, British Columbia, Canada

**The International Professional Geology Conferences are held every 4 years in different countries around the world. In 2012 its Canada's turn!**

Geoscientists Canada will host the 4th International Professional Geology Conference (4IPGC), in Vancouver, January 22-24, 2012. By special arrangement with the Association of Mineral Exploration of British Columbia **AMEBC**, 4IPGC will coincide with Mineral Exploration Roundup 2012. Previous IPGC conferences were held in Alicante, Spain in 2000, London, England in 2004 and Arizona USA in 2008.

Under the theme "**Earth Science - Global Practice**", the conference will complement the work of international professional geoscientists

and align with Roundup. 4IPGC continues the tradition of providing valuable coverage of topics related to professionalism and practice issues affecting Earth scientists globally.

4IPGC will feature a 2.5 day program. By arrangement with AMEBC, those registered for 4IPGC will also be able to attend Roundup, and those attending Roundup can attend 4IPGC.

If you or your organization would like to suggest a technical session or become a sponsor, please contact Geoscientists Canada (604-412-4888 or [4ipgc@ccpg.ca](mailto:4ipgc@ccpg.ca))

Co-conveners
