

## Stable Isotope Geochemistry and Mass Spectrometry

FY2011

**Position number:** 0003114

**Academic rank:** Assistant/Associate Professor Level - Tenure Stream

**Specialization:** Stable Isotopic geochemistry and mass spectrometry

The Department of Geology and Planetary Science at the University of Pittsburgh (<http://www.geology.pitt.edu>) invites applications for a tenure-track faculty position in stable isotope geochemistry at the advanced assistant or associate professor level. The position would begin with the fall term 2011, subject to budgetary approval. We seek an outstanding individual whose research program includes a strong field component, and who has expertise in light stable isotope mass spectrometry. A Ph.D. is required at the time of appointment.

The successful candidate will be expected to develop an active, externally funded research program, including supervision of M.S. and Ph.D. students and undergraduate research projects. Teaching duties will include undergraduate and graduate courses in isotope geochemistry and related fields. We seek someone who would complement one or more of our existing programs in environmental geology, geophysics and geochemistry, hydrology, paleoclimatology, soil science, and volcanology.

Applicants should submit to the *Stable Isotope Geochemistry Mass Spectrometry Search Committee, Department of Geology and Planetary Science, 200 SRCC, University of Pittsburgh, Pittsburgh, PA, 15260, USA* the following materials:

1. CV (including past and current grant support);
2. Statements of research and teaching interests;
3. Copies of relevant publications;
4. Names and addresses of at least four references.

Application deadline is January 15, 2011.

The University of Pittsburgh is an equal opportunity/affirmative action employer. Applications from women and members of minority groups are especially encouraged.
